TWIN TAPEWIRE (SELF ADHESIVE)

2 strips of copper wire encased within two layers of transparent tape. The two copper tapes are colour coded to make connecting easier and to help avoid short circuits.
 Available in the following roll lengths:
 1.5m (5ft) Part No: JM/U15 £2.99
 4.5m (15ft) Part No: JM/U7 £6.99
 15.2m (50ft) Part No: JM/U8 £11.99
 Tape width (overall) 16mm (5/8")
 Tape thickness 0.125mm.
 Max current 5A (5000mA)

The Copper Tape Method!
 Some Houses are supplied with a soldered lighting circuit of twin copper wire in the house. The idea is this is then covered with wallpaper or paint and lights are then attached by using pins or eyelets into the tape. If your house is supplied with this and you wish to use it we can supply everything you need!

BASIC WIRING KIT
CK105 CONTENTS:

- 4.5m (15ft) Roll Conductive Tapewire
- Junction Splice
- Transformer
- Lead-In Wire (w/switch)
- Pilot Hole punch (w/needles)
